

Sur Tec

Herbicide & Pesticide Enhancer

ALL-IN-ONE

◆ AMS ◆ DEFOAMER ◆ ANTI-DRIFT ◆ WATER CONDITIONER ◆ NON-IONIC SURFACTANT ◆

Principal Functioning Agents¹:

Ammonium Sulfate (34% equivalent by volume ²).....	34%
Proprietary anti-drift, defoamer and non-ionic surfactant.....	56%
Constituents Ineffective as Adjuvants.....	10%
Total.....	100%

¹All ingredients are accepted for use under CFR. 40, 180.1001©

²Proprietary buffering agent equivalent to 34% AMS by volume

KEEP OUT OF REACH OF CHILDREN CAUTION

BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, NOTICES & LIABILITIES.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Harmful if swallowed, absorbed through skin or inhaled. Avoid contact with eyes, skin or clothing. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

IF IN EYES: Flush with clean water for 15 minutes. Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. As with all chemicals, eye protection should always be used.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious or convulsing person.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.

PERSONAL PROTECTIVE EQUIPMENT

Wear chemical-resistant gloves, long-sleeved shirt, long pants and shoes plus socks when mixing or applying this product.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Store in original container only. Keep container tightly closed. Do not allow water to be introduced into the contents of this container. Do not store near heat or open flame. Do not store with oxidizing agents.

GENERAL INFORMATION

SUR-TEC is a specialized formulation of AMS, deposition agents, activators and proprietary surfactant blend designed to enhance the degree and speed of pesticides/herbicides/fungicides performance.

SUR-TEC can effectively enhance pesticide/herbicide/fungicide spray application and efficiency. This product mixes quickly and easily with pesticides/herbicides/fungicides and should be used to positively enhance performance.

MIXING INSTRUCTIONS

Always add SUR-TEC to the spray tank first before adding any other tank mix product, unless specifically directed by pesticide/herbicide/fungicide directions to do otherwise. Fill spray tank one-half full with water and begin agitation. Add SUR-TEC first and then add the pesticides/herbicides/fungicides and other solutions as directed by labeling.

DIRECTIONS FOR USE

Add this product to the spray tank mix at the rate specified on the pesticide/herbicide/fungicide label. SUR-TEC may be applied by ground, CDA, or aerial spray equipment.

Ground, CDA, Aerial: Use 1/4 - 2 pints per 100 gallons of spray. A general recommended rate is 3/4 pint per 100 gallons of spray.

Buffering: Use 3/4 pint per 100 gallons to obtain an initial buffering effect. The use of a pH measuring device is advisable to insure the proper rate of SUR-TEC is being used. Some pesticides/herbicides/fungicides require higher or lower pH and those labels should be followed. Rates may be adjusted as water conditions vary.

Water Conditioning: Use at a rate of 1-2 quarts per 100 gallons of spray solution when used in place of 8-17 pounds of ammonium sulfate. Two (2) quarts of SUR-TEC is a substitute for 8.5 pounds of ammonium sulfate.

NOTICE - READ CAREFULLY

Conditions of Sale - Limited Warranty and Limitations of Liability and Remedies. The directions on this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of U.S. Ag, LLC or seller. Failure to follow label directions may cause injury to crops, animals, man or the environment. U.S. Ag, LLC warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of U.S. Ag, LLC. The obligation of U.S. Ag, LLC is limited to replacement of product for the quantity of proven defective material only. U.S. Ag, LLC makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.
